Coimbatore, India

SUMMARY

Aspiring AI/ML Engineer, Data Scientist, and Computer Science student with a strong interest in Artificial Intelligence, Machine Learning, Generative AI, Data Science, and Software Development. Currently building expertise in Python, Data Structures and Algorithms, data analysis, and AI-powered applications through hands-on projects, certifications, and continuous learning. Passionate about uncovering insights from data, solving real-world problems with technology, and developing scalable, impactful solutions. Driven by a curiosity for both AI and Data Science, with the goal of building intelligent systems that create meaningful value.

PROJECTS

- **Smart Sanitation Robot — Team Project**

Stack: Arduino, Embedded Systems, Robotics

- Assisted in the development and testing of an automated sanitation robot.
- Supported hardware integration and system validation.
- Collaborated with team members to improve project functionality and performance.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, SQL
- **Web Technologies:** HTML
- **Databases:** MySQL
- **Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming, DBMS Fundamentals
- **AI and Data Science:** Machine Learning Fundamentals, Data Analysis **Tools:** GitHub, VS Code, Jupyter Notebook

EDUCATION

- **Kumaraguru College Of Technology (KCT)**

Coimbatore, India

Bachelor of Engineering – Computer Science and Engineering

2025 – 2029

- Relevant Coursework: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks

CERTIFICATIONS & LEADERSHIP

- **Emerging Domains**[\[Certificate\]](#)
- **Emerging Domains In computing**[\[Certificate\]](#)
- **Embedded Systems Associate - Team Sea Sakthi** Supported team activities and project coordination; Contributed to management and technical discussions
